

**Appendix 4: Individual Waters Suggested By Commenters To Remove From
The Minnesota 2020 303(d) List**

Appendix 4: Individual Waters Suggested By Commenters To Remove From The Minnesota 2020 303(d) List

| Commenter Number | WID/AUID | Location Code | Segment Name | Part of 1300 (YES/NO) | Tier II Water ? | EPA Action | Rationale for EPA Action |
|-------------------|--------------|---------------|-------------------|-----------------------|-----------------|--|---|
| 1389 | 04010201-A99 | | Embarrass River | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | This segment is included on MPCA's 2017 List of 1300 waters and available sulfate water quality data meets EPA's screening analysis (Section III of the Decision Document, 4/27/2021). |
| 1313, 1370 & 1389 | 04010201-B00 | | Embarrass River | YES | -- | EPA acknowledges the information presented by Commenters 1313, 1370 & 1389 and will remove this segment from the Minnesota 2020 303(d) list. | This segment is not a part of MPCA's 2017 List of 1300 waters and therefore fails to meet EPA's screening analysis (Section III of the Decision Document, 4/27/2021). Because EPA erred in including this segment, EPA is removing this segment from its additions to the Minnesota 2020 303(d) List. |
| 1313 & 1370 | 04020101-952 | | Second Creek | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | This segment is included on MPCA's 2017 List of 1300 waters and available sulfate water quality data meets EPA's screening analysis (Section III of the Decision Document, 4/27/2021). |
| 1377 | 09030002-501 | | Sand River | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | This segment is included on MPCA's 2017 List of 1300 waters and available sulfate water quality data meets EPA's screening analysis (Section III of the Decision Document, 4/27/2021). For data reviewed by EPA in assessing this segment, please see EPA's compilation of data for this water in Appendix 2 of its Response to Comments document . |
| 1377 | 09030002-503 | | Pike River | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | This segment is included on MPCA's 2017 List of 1300 waters and available sulfate water quality data meets EPA's screening analysis (Section III of the Decision Document, 4/27/2021). For data reviewed by EPA in assessing this segment, please see EPA's compilation of data for this water in Appendix 2 of its Response to Comments document . |
| 1377 | 31-0037-00 | | Hay Lake | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | EPA acknowledges the information provided by Commenter 1377 regarding the Hay Lake (31-0037-00) segment. |
| 1377 | 31-0067-03 | | Swan Lake | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | This segment is included on MPCA's 2017 List of 1300 waters and available sulfate water quality data meets EPA's screening analysis (Section III of the Decision Document, 4/27/2021). For data reviewed by EPA in assessing this segment, please see EPA's compilation of data for this water in Appendix 2 of its Response to Comments document . EPA advises the Commenter to refer to the Minnesota Department of Natural Resources Lake Finder website (https://www.dnr.state.mn.us/lakefind/lake.html?id=31006703) for further information on this segment of Swan Lake. |
| 1377 | 68-0730-00 | | Sandy Lake | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | This segment is included on MPCA's 2017 List of 1300 waters and available sulfate water quality data meets EPA's screening analysis (Section III of the Decision Document, 4/27/2021). For data reviewed by EPA in assessing this segment, please see EPA's compilation of data for this water in Appendix 2 of its Response to Comments document . |
| 1389 | 69-0434-02 | | Wynne Lake | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | This segment is included on MPCA's 2017 List of 1300 waters and available sulfate water quality data meets EPA's screening analysis (Section III of the Decision Document, 4/27/2021). |
| 1389 | 69-0496-00 | | Embarrass Lake | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | This segment is included on MPCA's 2017 List of 1300 waters and available sulfate water quality data meets EPA's screening analysis (Section III of the Decision Document, 4/27/2021). |
| 1377 | 69-0729-00 | | Little Sandy Lake | YES | -- | EPA acknowledges the information presented by the Commenter but EPA is continuing to include this segment on the Minnesota's 2020 303(d) list. | This segment is included on MPCA's 2017 List of 1300 waters and meets EPA's screening analysis (Section III of the Decision Document, 4/27/2021). |
