Mr. Javier E. Laureano, Director  
Water Division  
U.S. Environmental Protection Agency, Region 2  
290 Broadway, 24<sup>th</sup> Floor  
New York, New York 10007-1866

Dear Mr. Laureano:

Attached please find the 29<sup>th</sup> Annual Report for the State of New Jersey's assumed Freshwater Wetlands Program. This report covers the period from July 1, 2021 through June 30, 2022.

If there are specific questions relating to the reports, please contact Jennifer Lesniak of my staff at [jennifer.lesniak@dep.nj.gov](mailto:jennifer.lesniak@dep.nj.gov).

Sincerely,

Vincent J. Mazzei, Jr., P.E.  
Assistant Commissioner  
Watershed & Land Management

CC: Marco Finocchiaro, USEPA Region 2  
Jennifer Moriarty, NJDEP, Division of Land Resource Protection  
Anika Andrews, NJDEP, Division of Watershed Protection and Restoration

**State of New Jersey**  
**Twenty-Ninth Annual Report to USEPA, Region II**  
**For a State-Assumed Freshwater Wetlands Regulatory Program**  
**(July 1, 2021 - June 30, 2022)**

The State of New Jersey, Department of Environmental Protection (Department) hereby submits this 29<sup>th</sup> annual report pursuant to the program reporting requirements of 40 CFR 233.52, and the State of New Jersey's Memorandum of Agreement (MOA), 40 CFR Part 233.13, with the Regional Administrator of the U.S. Environmental Protection Agency (USEPA), Region II. Please note that this report covers the time period from July 1, 2021 through the end of the State fiscal year, June 30, 2022, as required by the MOA.

**DATA SUMMARY**

Attached (**Appendix 1**) please find a database printout listing the pertinent regulatory program decisions rendered by the Department during the referenced review period. The data follows the same format as that provided in last year's report. This report provides data for applications that were decided within the reporting period.

As you recall, the Department's database tracks wetlands impacts in several categories, including "Wetlands filled (acres)," "Wetlands Excavated (acres)," and "Wetlands Cleared (acres)." Since the Federal government only regulates wetland fill, the tables below only summarize acres of wetlands filled, not acres cleared or excavated; however, **Appendix 1** includes all three types of impacts. The database also provides the categories "Emergency permits, GPs and IPs;" "GP Extension;" "General Permit Modification;" "Individual Permit Modification;" and "Individual Permit – Open Waters."

Finally, please note that general permit 10 is divided into two options: 10A and 10B. Table 2 below combines these options for reporting purposes, but the printout shows the separate categories for your information.

General Permit Designation	Description of General Permit
10A-Very Minor Road Crossing	100-foot crossing & ¼ acre impact OR 1/8 acre and no length limit
10B-Minor Road Crossing	No alternative with lesser impact & ¼ acre impact

**Table 1**

The Department processed a total of 150 permit applications and made decisions as follows:

**Status of Permits from July 1, 2021 – June 30, 2022**

	IPs & IP Mods	GPs, GP Extensions & GP Mods	SOW Fill	Emergency Permits		Total
				GPs	IPs	
# of Decisions	9	141	0	0	0	150
# of Permits Approved	9	141	0	0	0	150

# of Permits Denied	0	0	0	0	0	0
# of Applications Withdrawn/Cancelled	0	0	0	0	0	0

**Table 2**

The following tables contain an evaluation of the permit issuance data and the cumulative freshwater wetland fills resulting from the 150 freshwater wetland permits approved by the Department. The database printout is included as **Appendix 1**.

**ACREAGE OF WETLANDS FILLED UNDER GENERAL PERMIT AUTHORIZATIONS  
July 1, 2021 -- June 30, 2022**

Permit Number	Permit Name	# of Permits Approved	Acres Filled	Mitigation Required
GP1	Maintenance and Repair of Existing Features	12	None	Not Required
GP2	Underground Utility Lines	16	0.057	Required for permanent impacts to 0.1 acres or greater.  No permits required mitigation.
GP3	Discharge of Return Water	0	None	Not Required
GP4	Hazardous Site Investigation and Cleanup	3	None	Required. Temporary impacts must be restored.  No permits required mitigation.
GP5	Landfill Closures	1	None	Required except for wetlands that formed on top of landfill.  No permits required mitigation.
GP6	Non-Tributary Wetlands	10	1.114	Required for impacts to waters of the U.S. only.  No permits required mitigation.

GP6A	Transition Areas Adjacent to Non-Tributary Wetlands	4	0.077	Not Required
GP7	Human-made Ditches or Swales in Headwaters	6	0.523	Not Required
GP8	House Additions	7	None	Not Required
GP9	Airport Site Line Clearing	0	None	Not Required
GP10A & 10B	Very Minor and Minor Road Crossings	23	0.483	Required for permanent impacts to 0.1 acres or greater.  One permit should have required mitigation.
GP11	Outfalls and Intake Structures	10	0.193	Required for permanent impacts to 0.1 acres or greater.  No permits required mitigation.
GP12	Surveying and Investigating	5	None	Not Required
GP13	Lake Dredging	0	None	Not Required
GP14	Water Monitoring Devices	2	0.001	Not Required
GP15	Mosquito Control Activities	0	None	Not Required
GP16	Creation, Restoration, and Enhancement of Habitat and Water Quality Functions and Values	2	None	Not required. GP16 authorizes the enhancement of wetlands and/or habitat.
GP17	Trails and Boardwalks	7	0.115	Not Required
GP17A	Non-motorized, Multiple-use Paths	2	0.077	Not Required
GP18	Dam Repair	8	0.097	Not Required
GP19	Docks and Piers	0	None	Not Required
GP20	Bank Stabilization	4	0.002	Not Required
GP21	Above Ground Utility Lines	7	0.004	Required for permanent impacts to 0.1 acres or greater.

				No permits required mitigation.
GP22	Expansion of Cranberry Growing Operations in the Pinelands	0	None	Not Required
GP23	Spring Developments	0	None	Not Required
GP24	Malfunctioning Individual Subsurface Sewage Disposal (Septic) Systems	3	None	Not Required
GP25	Minor Channel or Stream Cleaning for Local Government Agencies	0	None	Not Required
GP26	Redevelopment of Previously Disturbed Areas	0	None	Not Required
GP27	Application of Herbicide within Freshwater Wetlands and Transition Areas to Control Invasive Plant Species	0	None	Not Required

**Table 3**

**ACREAGE OF WETLANDS FILLED RESULTING FROM ALL PERMITS ISSUED BY THE DEPARTMENT  
July 1, 2021 -- June 30, 2022**

	# Authorized	Acres Filled	Mitigation Required
Cumulative General Permits	132	2.743	See Table 2 above
General Permit Modifications	6	0.063	Not required
General Permit Extensions	3	None	Not required
Emergency General Permits	0	None	Not required
Individual Wetland Permits	5	0.404	Required

Individual Wetland Permit Modifications	2	0.004	Required if modification authorizes additional wetland impacts.
Individual Open Water Fill Permits	2	0.965	Required
Emergency Individual Permits	0	None	Required
Individual Permit Extensions	0	None	Not required
<b>Totals:</b>	<b>150</b>	<b>4.179</b>	

## **NEW JERSEY PINELANDS COMMISSION**

Under a Memorandum of Agreement between the Department and the New Jersey Pinelands Commission, the Commission conducts regulatory review of activities involving discharges of dredge or fill material within the Pinelands Area. Below is the freshwater wetland permit information for July 1, 2021- June 30, 2022.

### **FY 2022 Pinelands Area NJ Freshwater Wetlands General Permit Activity**

<b>General Permit Type</b>	<b>Number of Permits Issued</b>	<b>Acreage Impacted</b>
10A	1	0.055
10B	2	0.082
17	1	0.025
18	1	0.005
Combined 2 & 17	1	(0.012 & 0.060 =) 0.072
<b>Total</b>	<b>6</b>	<b>0.239</b>

\* As discussed in past reports, the New Jersey Pinelands Commission does not distinguish between “wetlands cleared,” “wetlands filled,” and “wetlands excavated.” Therefore, the acres impacted include all three types of impacts.

## **ENFORCEMENT**

The Bureau of Coastal and Land Use Compliance and Enforcement, responsible for enforcing the State's freshwater wetlands program, reports the following activity for July 1, 2021- June 30, 2022.

<b>USEPA FWW data for FY 21: 7/1/21 – 6/30/22</b>	<b>Results</b>
Incidents reported	600
Incident Investigations conducted- field Investigation	368

Virtual Investigation	274
Violation documents (NOVs) issued for Incident Investigations (includes warning letters)	60
Permit Compliance Inspections	13
Violation documents (NOVs) issued for Permit Violations	5
Notice of Administrative Order and Civil Administrative Penalty Assessment (AONOCAPA) and Notice of Civil Administrative Penalty Assessment (NOCAPAs) issued	3
ACOs and JCOs finalized	4
Settlements finalized (includes SAs and Stips)	2
Penalties Assessed (includes AONOCAPA, NOCAPA, and ACOs not associated with an AONOCAPA)	\$67,800.00
Penalties Collected	\$224,149.80

## **DISCUSSION OF PERMIT DATA**

For those general permits (GP) under which authorizations during the review period resulted in greater than five acres of cumulative impacts, a more detailed description and discussion is provided. However, there were no general permit categories that resulted in greater than five acres of cumulative impacts during this reporting period.

## **MITIGATION**

The Freshwater Wetlands Act and Rules allow the Department to authorize permits with standard conditions requiring an acceptable mitigation proposal before the start of regulated activities. Therefore, the Department's permitting impacts data and mitigation data do not align within any single reporting period. Some applicants delay the required submittal of a mitigation proposal until such time that they are ready to undertake their project which is why many projects do not have an approved mitigation option at the time the permit is obtained. As a result, the reviews conducted by the Mitigation Unit frequently include the review of mitigation projects intended to satisfy approved permits that may have been included in previous reports to EPA and may not include reviews of mitigation for permits contained on the current annual report. Regardless, thanks to EPA grant funding, the Department has sufficient tools to track and report on its mitigation efforts.

During the reporting period, the Department's Mitigation Unit was involved in 82 mitigation reviews. There were 10 permits issued during this reporting period that authorized impacts greater than 1.5 acres. Five of those

were for temporary impacts associated with hazardous waste removal. The table below describes each project falling within assumed waters that exceeded 1.5 acres of impacts as well as the mitigation method.

<b>File Number Applicant Municipality/County</b>	<b>Impact (acres)</b>	<b>Type of Impact</b>	<b>Mitigation Option</b>
0310-20-0001.2 Rancocas Substation	2.32	Temporary impacts for replacement of transmission towers	Restoration onsite
0500-03-0005.3 Atlantic City Electric Dennis/Cape May	10.41	Some permanent and other temporary impacts for replacement of transmission towers	Bank credit purchase for permanent impacts. Temporary impacts to be restored onsite.
0807-21-0002.1 Delaware River Partners Greenwich/Gloucester	6.535	Permanent impacts for new multi-use, deep-water port and logistics center.	Bank credits purchased.
0809-08-0010.4 Weeks Marine Logan/Gloucester	2.91	Bulkhead for dredge material holding facility (fill in open water).	Offsite enhancement project.
0907-04-0006.6 USEPA	7.94	Environmental Cleanup-Temporary	Restoration onsite
1206-21-0001.1 Buckelew Bogs Helmetta Boro/Middlesex	12.498	Enhancement	In Lieu Fee Project
1435-11-0006.1 William J. Adams	3.11	Temporary impacts for remedial investigation	Restoration onsite.
1436-13-0005.2 Hercules Inc. Roxbury/Morris	2.76	Environmental Cleanup-Temporary	Restoration onsite
1810-08-0001.6 Wyeth Holdings LLC Hillsborough/Somerset	7.257	American Cyanamid Environmental Cleanup	These are offsite enhancement activities (at Duke Farms) for permanent impacts associated with the cleanup at American Cyanamid
1810-10-0003.3 GSA Belle Meade Depot Hillsborough/Somerset	3.97	Environmental Cleanup-Temporary	Restoration onsite

There are other projects in the raw data that have impacts exceeding 1.5 acres. Upon further review, these impacts are to non-assumable resources such as transition areas and riparian areas.

Additional Mitigation Information

During the reporting period, the Mitigation Unit completed mitigation reviews for permits resulting in the following permanent wetland impacts. Not all permits require mitigation as the rules allow for some minor disturbance under certain general permit authorizations. Therefore, these impacts will not align with the impacts reported elsewhere for current permitting.

PERMIT IMPACTS in 2022 reporting period (for projects which require mitigation)

	<b>Palustrine Emergent (ac)</b>	<b>Palustrine Scrub/Shrub (ac)</b>	<b>Palustrine Forested (ac)</b>	<b>State Open Water (ac)</b>	<b>Total (ac)</b>
Excavated	0.25	0	0	2.66	2.91
Filled	27.85	2.23	10.92	2.34	43.34
Temporary*	109.27	20.52	89.42	15.31	234.52
<b>Total</b>	<b>137.37</b>	<b>22.75</b>	<b>100.34</b>	<b>20.31</b>	<b>280.77</b>

\*Temporary impacts require a complete restoration plan and five-year monitoring, like all mitigation projects.

It is important to note that while the impacts have been recorded in the table above for all projects reviewed, if there was no plan included with the permit application, the applicant received a conditional approval requiring the applicant to provide a mitigation proposal. Therefore, there are no mitigation numbers to report until such time that a plan is received and approved.

The following summary tracks only mitigation for which plans have been approved and which are in various stages of completion. The “amount required” is the same as the impact number. The amount proposed reflects the application of a ratio. For example, if an applicant proposes a restoration mitigation, the amount proposed reflects the Department’s requirement to provide two acres for each one acre of impact; for enhancement, anywhere from three to ten times the area of impact; and for preservation, the amount required would reflect the Department’s requirement to provide 27 acres for each acre of impact. The data for this time period is as follows:

APPROVED MITIGATION in 2022 reporting period

<b>Type of Wetlands to be Mitigated</b>	<b>Amount Required (acres)</b>	<b>Amount Proposed (acres)</b>	<b>Amount Completed (acres)</b>
Palustrine Emergent	16.543	16.543	0.027
Palustrine Forested	15.115	18.876	0.516
Palustrine Scrub Shrub	3.116	3.327	0.257
State Open Waters	1.303	1.413	0
<b>Totals</b>	<b>36.077</b>	<b>40.159</b>	<b>0.8</b>

Finally, the Department is providing an additional table summarizing the impacts for projects that were completed in their entirety and closed out during the reporting period.

MITIGATION COMPLETED in 2022 reporting period

Type of Wetlands Mitigated	Amount Required (acres)	Amount Completed (acres)	Amount Pending (acres)
Palustrine Emergent	5.914	5.915	0
Palustrine Forested	8.749	13.718	0
Palustrine Scrub Shrub	0.051	0.051	0
State Open Waters	0.621	0.621	0
<b>Totals</b>	15.335	20.305	0

Mitigation Banks

The Department approved one mitigation bank during the reporting period as follows:

Bank Name	Date Approved	Location Twp/County	Service Area	Acres in Bank	Number of Credits	Type of Bank
Oldmans Creek	4/6/2022	Pilesgrove/Salem	WMA 18	68.56	11.12 wetlands 9.01 RZ	Wetlands/RZ

In-Lieu Fee (ILF)

The Wetlands Mitigation Council administers the State’s in lieu fee program. No new projects came before the Council during this reporting period.

Forty monetary contributions were received during this reporting period.

Water Region	Amount	Date Received	Permit Number	Total Impact	WMA
Atlantic	\$2,312.43	7/20/21	0501-21-0005.1 (ISS)	0.0003	16
	\$872.01	8/16/21	1507-21-0036.1 (ISS)	0.0019	13

			0507-09-0002.1 (ISS)	0.0019	16
			0501-02-0049.2 (ISS)	0.00089	16
	\$8,552.41	6/1/22	0501-22-0003.1 (ISS)	0.0008	16
	\$3,563.88	6/1/22	1507-09-0241.1 (ISS)	0.0008	13
	\$24,389.55	6/1/22	0508-02-0030.1 (ISS)	0.0046	16
	\$8,346.91	6/10/22	0508-09-0030.1 (ISS)	0.001	16
	\$27,485.76	6/10/22	0510-05-0003.1 (ISS)	0.0019	16
	\$7,441.88	6/22/22	0510-09-0004.1 (ISS)	0.00058	16
	<b>Total:</b> <b>\$448,658.56</b>				
Northwest	N/A				
Lower Delaware	N/A				
Northeast	N/A				
<b>Total</b>	<b>\$448,658.56</b>				

Please note that these contributions are for projects occurring in tidal waters since the ILF includes tidal wetlands. The Mitigation Council anticipates completing an RFP in this Water Region this year.

The Council completed two projects during the reporting period:

Project Name	Approved Project	Remaining Balance	Wetlands Created/Enhanced or Restored	Status
Lenape 0109-11- 0001.1	\$851,649.92	\$0	15.04 acres	Visited in 2021 – Completed Successful Mitigation – received final financial report
Thompson Park 1213-15- 0007.1	\$930,339.31	\$0	16.57 acres	Visited in 2021 – Completed Successful Mitigation - received final financial report
<b>Total</b>	<b>\$1,781,989.23</b>	<b>\$0</b>	<b>31.61 acres</b>	

### OTHER INITIATIVES

The wetland impacts that the Division authorizes only account for a fraction of the wetlands on a particular property. Likewise, many of our permits result in conservation restrictions that preserve wetlands in perpetuity. The Department’s database (NJEMS) has been modified to track these positive changes. Wetlands left undisturbed and/or preserved have also been identified as a performance metric for the Division. For this reporting period, the Department provides the following information:

Freshwater Wetlands **preserved permanently** = 129.942 acres. These sites have conservation restrictions associated with approvals such as transition area averaging plans that include wetlands; and

Freshwater Wetlands **undisturbed** = 889.760 acres (wetlands that are unaffected on development sites for which we have approved permits).

### Data

The Department is providing the following data reports upon which the mitigation provisions of this report were based:

1. A printout of all mitigation projects receiving either preliminary or final sign off during the reporting period. “Complete Mitigation Supervisor Review by Impacts” contains all projects that were reviewed during the reporting period, including those that received conditions requiring the submittal of a mitigation proposal **and** projects for which a mitigation plan has been approved.
2. “Mitigation Plan Approval” encompasses projects for which a mitigation proposal has been provided and approved and which are now being tracked via the submittal of monitoring reports.

The key to both the “Mit Report Complete Supervisor Review by Impacts” and “Mitigation Plan Approval” is as follows:

“File number” is file number;

“Facility Name” is applicant name;

“Amount required” equates to the impact;

“Amount proposed” is the amount the applicant proposes to create, enhance, etc. in an approved mitigation plan and reflects the ratios that have been applied to the amount required;

“Amount completed” is the amount that has been field verified when the project has completed the 5-year (or longer) monitoring period;

“Mitigation Information Method” is the method of mitigation that is being provided (e.g., creation restoration, or enhancement). Note: the Department uses “Temporary” to designate impacts to be restored in kind and in place (e.g., after hazardous wastes are removed) and to distinguish these impacts from “Restoration,” which is a defined mitigation method.

“County-Municipality” is the location of the impact.

3. “Mitigation Completed” projects are those for which all requirements have been met, the project is complete in its entirety, and the file has been closed.

4. A History of Council Approved Projects; and

5. A list of State and Federal/State combined mitigation banks with freshwater wetland credits.

All mitigation documentation is included as **Appendix 2**.

## **COORDINATION WITH OTHER AGENCIES**

As required pursuant to the assumption agreement, the Department coordinates with the New Jersey Historic Preservation Office (an agency located within the New Jersey Department of Environmental Protection), the U.S. Fish and Wildlife Service, and EPA.

### **State Historic Preservation Office**

In accordance with the Memorandum of Understanding, the Department screens incoming applications for categories of activities that "may affect properties which are listed, or are eligible for listing, on the New Jersey or National Register of Historic Places" (see N.J.A.C. 7:7A-12.2(1)). However, in the October 2008 amendments to the Freshwater Wetlands Protection Act Rules, applicants are required to perform a preliminary assessment of their projects, and those proposing projects with a high probability of the presence of historic and archaeological resources, in accordance with the Department's criteria, are required to submit a Phase IA historical and archaeological survey and an architectural survey with their initial application to the Department. This enables the Department to forward the application with the initial survey to SHPO for review and comment. A permit cannot be issued "unless the applicant demonstrates to the Department that the proposed activity avoids or minimizes impacts to the maximum extent practicable or the Department determines that any impact to the affected property would not impact the property's ability to continue to meet the criteria for listing ...or otherwise negatively impact the integrity of the property or the characteristics of the property that led to the determination of listing or eligibility" (see N.J.A.C. 7:7A-4.3(b)5). The State Historic Preservation Office completed a total of 273 reviews. See **Appendix 4** for a summary of these reviews.

## **Endangered Species Issues**

The Department's review of permit applications under the Freshwater Wetlands Protection Act includes a review for potential impacts to both Federal and State-listed threatened and endangered species; 795 projects were reviewed, and 50 field inspections were conducted (COVID-19 impacted). As a result of these reviews, 232 sites were classified as wetlands of exceptional resource value\* due to the presence of State or Federally listed species or associated habitat. Of the 232 exceptional resource value classifications, 55 classifications were related to Federally-listed species (sturgeon and SBA are not included into exceptional resource value classifications). Specifically, the following classifications were made:

- 3 sites for bog turtle (*Clemmys muhlenbergii*)
- 2 sites for Swamp pink (*Helonias bullata*)
- 21 sites for Indiana bat (*Myotis sodalis*)
- 12 sites for Northern Long-eared Bat (*Myotis septentrionalis*)
- 8 sites for Piping plover (*Charadrius melodus*)
- 8 sites for Red Knot (*Calidris canutus*)
- 6 sites for Shortnose Sturgeon (*Acipenser brevirostrum*)
- 5 sites for Atlantic Sturgeon (*Acipenser oxyrinchus oxyrinchus*)
- 1 site for Black Rail (*Laterallus jamaicensis*)
- 1 site for Sea Beach Amaranth (*Amaranthus pumilus*)

\*Designation of wetlands as exceptional resource value under the State program reflects the highest classification and affords such resources the greatest degree of protection under the Freshwater Wetlands Protection Act. Similarly, certain limitations and restrictions apply within and around such wetlands, and specific types of proposed activities -- which might otherwise qualify for authorization under applicable general permits -- cannot be authorized if proposed within wetlands of exceptional resource value or their associated transition area.

## **U.S. Fish and Wildlife Service**

As required pursuant to the Department's Memorandum of Understanding with the U.S. Fish and Wildlife Service, upon receipt, those applications for certain general permits in municipalities that have Federally-listed endangered or threatened species are sent to the U.S. Fish and Wildlife Service for review. The Service makes a finding of "no potential to affect" or "potential to affect" endangered or threatened species. For those with no potential to affect, the Department is free to complete processing of the application and approve or deny it as appropriate. For those with the potential to affect endangered or threatened species, as determined by the U.S. Fish and Wildlife Service, the Department works with the Service to satisfy their concerns by either working with the applicant to amend a project, attaching conditions to a permit, denying a permit, or elevating the Service's concerns to USEPA for consideration and resolution.

Since the Service began experiencing severe staffing reductions that made it more difficult for them to fulfill their mandate, the Department agreed to modify its coordination process with the Service by undertaking pre-screening of applications with the goal of narrowing the number of projects circulated to the Service to those with species onsite or within a specific vicinity. Accordingly, the Department reviewed a total of 45 projects for potential impacts to Federally listed threatened or endangered species. Of these, 43 projects were determined to have no potential to impact Federally-listed species. However, two projects were deemed by the Department to have a potential to affect Federally-listed species and were therefore forwarded to the Service for review. The database printouts in **Appendix 3** show the results of the Service coordination on those applications that were completed during this timeframe.

## **Status of wetland permitting in the Highlands Preservation Area**

The Highlands Water Protection and Planning Act (Highlands Act) (N.J.S.A. 13:20-1 et seq.) establishes more stringent permitting for a region in the northern portion of the State. As stated in our last report, the Highlands Act has modified the administration of the State's wetland program in the Preservation area of the Highlands region by making it more difficult to obtain permits for impacts to Highlands open waters, which include wetlands. The Highlands Act prohibits all but linear impacts to Highlands open waters. Further, by regulation, all wetland impacts in the Highlands preservation area require mitigation.

The Department issued Highlands Preservation Area Approvals for a total of three projects. There was one General Permit 1 for Habitat Creation and Enhancement and two Highlands Preservation Area Approvals with Waiver. There were no wetlands filled in the Highlands Preservation Area that were associated with the approvals during the reporting period. Data from permitting that occurred in the Highlands preservation area under the Highlands Act is presented in **Appendix 5**.

## **OTHER SIGNIFICANT ISSUES**

In January 2020, New Jersey embarked on a targeted regulatory reform effort that will modernize environmental laws to Protect Against Climate Threats (PACT). NJ PACT will usher critically needed changes to our air emissions and environmental land use regulations, to enable government, businesses, and residents to effectively respond to current climate threats, and reduce future climate damages. NJ PACT charts a course of immediate and comprehensive action, taking steps that both: (1) cut emissions of greenhouse gases and short-lived climate pollutants; and, (2) tailor land use and planning policies to adapt to unavoidable impacts, such as sea-level rise, extreme weather, and chronic flooding. These reforms represent a PACT with the residents of New Jersey to help them adapt to the reality of climate change in a manner that protects property, infrastructure and quality of life, while supporting new economic development and smart growth. The Department is drafting regulatory changes.

## Update on Mitigation Fund As of June 10, 2022

**Fund Balance as of 6/10/22:     \$2,462,987.72**

**Deposits:**

2/23/22	Deposit	\$41,985.07
3/23/22	Deposit	\$4,239.76
3/22/22	Deposit	\$5,040.60
3/22/22	Deposit	\$17,490.75
3/28/22	Deposit	\$17,748.60
6/1/22	Deposit	\$8,552.41
6/1/22	Deposit	\$3,563.88
6/1/22	Deposit	\$24,389.55

5/13/22     Sale                     \$400,000.00 (transfer from brokerage acct to settlement fund)

**Payments:**

6/6/22     Check 1033     \$57,400.00

**B. Outstanding Approved Projects with remaining balance:**

Project Name	Approved Project	Remaining Balance	Wetlands Created/Enhanced or Restored	Status
Lake Hudsonia	\$350,000.00	\$302,150.00	6.5 acres	Grant has been paid for work completed through May 31, 2018. Awaiting current quarterly reports; Site will go to construction this year
Lenape	\$851,649.92	\$0	15.04 acres	Visited in 2021 – Completed Successful Mitigation – received final financial report
Skillman Park	\$56,500.00	\$13,677.08	2.92 acres	Monitoring – Fall Site inspection
Kittatinny	\$2,093,000.00	\$0	90.46 acres	Milestone payment 5 approved – replanting completed in April of 2021 – 4 <sup>th</sup> year monitoring report approved – site visit conducted early June
Pin Oak	\$1,575,705.99	\$128,548.53	27.14 acres	4 <sup>th</sup> year of Monitoring in 2021 – site visit conducted in August 2022 - received final financial report and repayment request
Thompson Park	\$930,339.31	\$0	16.57 acres	Visited in 2021 – Completed Successful Mitigation - received final financial report
Jamesburg	\$632,140.30	\$130,289.87	15.31 acres	Last received report – June 2021
Deep Run Preserve	\$717,504.81	\$62,330.96	14.40 acres	4 <sup>th</sup> year of Monitoring in 2021 – site visit conducted in August 2022 - received final financial report and repayment request
Bloomfield Township	\$1,755,746.67	\$257,119.53	5.54 acres	Up to date with reporting – site visit conducted in July 2022
Liberty State Park	\$1,533,444.00	\$0.00	28.6 acres	Project is in design and going through public comment

Buckelew Bogs	\$669,877.93	\$450,844.53	9.86 acres	Milestone payment 3 approved but not reflected here – construction complete form done in May 2022
Total			233.18	

**C. Total Amount of Funds Allocated (B):** \$1,344,960.53

**D. New Fund Balance:** \$1,118,027.19

**E. Total Interest Earned on Account: \$548,134.00**
