Updates to GSA Advantage and What It Means for Safer Choice-Certified Products

April 9, 2024

Jenna Larkin, EPA

Environmentally Preferable Purchasing

An Introduction to P2 and EPP

Pollution Prevention (P2): Any practice that *reduces, eliminates, or prevents pollution at its source* prior to recycling, treatment or disposal.

Environmentally Preferable Purchasing (EPP):
A *key source reduction strategy* for institutional purchasers

- Leverages institutional buying power
- Helps stimulate market demand for and increase availability of greener products and services for all purchasers.

Federal Sustainable Acquisition Directives

- Executive Order 14057 & Implementing Instructions
- Federal Sustainability Plan
- OMB Memo 22-06

Net-zero emissions procurement by 2050

Prioritize products that can be reused, refurbished, or recycled

Ensure compliance with statutory mandates and procurement of products/services identified or recommended by EPA.

Prioritize products/services addressing multiple environmental impacts

Prioritize products that do not contain PFAS.

Take actions to reduce and phase out procurement of single-use plastic products

Expansion of EPA's Recommended Standards and Ecolabels

EPA is in the process of assessing additional private sector standards/ecolabels for possible inclusion into the Recommendations.

Expansion Categories:

- **Food Service Ware**
- **Uniforms/clothing**
- **Professional services**
- **Laboratories**
- **Healthcare**

Large U.S. Federal Footprint = Opportunity to Lead by Example and Influence the Sustainable Products Market

The U.S. Federal government:

Is the single largest purchaser in the world spending **~\$690 billion annually** on goods and services

Procurements represent roughly **2.5% of USGDP** and influence much more

Manages over **350,000 buildings, 600,000 vehicles**, and nearly **1 of every 5 acres** in the U.S.

Spends **~\$90 billion annually** on IT equipment and services

Is the largest energy consumer in the nation, spending **~\$18 billion annually**

Uses **renewable energy** to power 8.6% of its facility electric energy needs

What is GSA Advantage?

- GSA Advantage is an online shopping and ordering system that provides access to thousands of contractors and millions of supplies (products) and services. Anyone may browse on GSA Advantage to view and compare the variety of products and services offered.
- Federal government employees can make purchases on GSA Advantage using: GSA SmartPay, an Activity Address Code (AAC) or a Department of Defense Activity Address Code (DoDAAC).
- State and local government entities can now use GSA Advantage to purchase products and services under both the [Cooperative Purchasing Program](#) and the [Disaster Purchasing Program](#).

MAS Roadmap (Link in Resources Slide)

Roadmap to get a MAS contract

1 Decide if getting a Multiple Award Schedule contract is in your best interest

Take the mandatory [pathways to success \[PDF - 2 MB\]](#) training. It takes 3-4 hours. You must acknowledge in the eOffer system that you completed this training within the past year when you submit your offer.

- Government contracting officers may set aside orders and blanket purchase agreements in [these socioeconomic categories](#) when their market research shows that at least three firms are capable of providing the products and services.
- Our **Startup Springboard program helps new companies** without two years of corporate experience to possibly substitute:
 - Other documentation to demonstrate financial responsibility if you don't have two years of financial statements.
 - Company executives and key professionals' management and project experience, or other additional info that demonstrates your ability to manage a company and provide the services and products.

2 Do a readiness assessment

A designated Authorized Negotiator who is also an employee of the company must complete the [readiness assessment](#). You will acknowledge in eOffer that this was done within the past year when you submit your offer.

3 Read the entire MAS solicitation

The [solicitation and category attachments](#) are our formal request for contractors to submit offers. It will detail the required elements of an offer, what evaluation criteria we use to evaluate whether or not to award a MAS contract to your company, and the specific terms and conditions you will need to comply with.

4 Review the new offeror checklist

Our [new offeror checklist \[XLSX - 857 KB\]](#) summarizes the minimum requirements for your submission. Use the category-specific tabs to make sure you don't miss anything. A contracting officer also might need additional information as they review your proposal.

5 Complete required registrations

If you haven't already, take care of these requirements:

- Register in the System for Award Management, or SAM. Use the [SAM entity registration checklist](#) for detailed instructions.
- Get a unique entity identifier, or UEI, which is required to do business with us. You'll get it as part of the registration process at SAM.gov.
- Register for [eOffer](#), which you'll use to submit your offer and accept modifications. You'll get a FAS ID as part of the registration process. To get a FAS ID, you need to make sure you are listed in SAM as a government business POC, electronic business POC, past performance POC, or alternates of them. Use the [FAS ID help guide](#) if you need to.

6 Gather the required info for your offer

You will need to use [our templates](#) for some forms, and you will need to compile information to input into required fields in eOffer. Since some fields have character limits, you might want to prepare your information in another application, and then paste it into the system. You should also look up your SINs in our [table](#) to see what SIN-specific requirements exist.

7 Finalize and submit your offer

Log into eOffer using your FAS ID and then complete the information, upload forms, sign, and submit your completed offer. The [eOffer/eMod help center](#) has a knowledge base with a table of contents and search to find help for whatever you need.

Issues With Advantage

Size of text correlates to how frequently a customer expresses the issue as a comment on Adv survey

What VPP Isn't

VPP ≠ MAS Contract

What is the Verified Products Portal

- **Data Warehouse for Authoritative Product Content**
 - Manufacturer/Wholesaler Supplied Data
- **Vendor Authorization Control**
 - Letters of Supply
- **Supply Chain Risk Management Data**
 - Product Prohibition Rules
- **Sustainability Information**
 - e.g., Safer Choice, Energy Star, SNAP, etc.
- **Catalog Standardization**
 - Interface with FAS Catalog Platform (FCP)

 VPP STATUS	
Deliver prototype & begin onboarding	✓
Prohibited Products and Supplier Authorization flags	✓
VPP data authoritative for source of supply	✓
Connect VPP to GSA Advantage!	✓
Continue to grow participation	✓
Integrate with GSA Advantage!	✓
Expand VPP to collect sustainability icons	✓

Program Goals

Objective of Environmental Program Engagements

- Improve environmental accuracy on *GSAAdvantage!* by engaging with the environmental program offices to encourage program manufacturers and suppliers to participate in the Verified Products Portal (VPP).
- Increase manufacturer participation in the GSA Verified Products Portal (VPP) to make it easier for federal buyers to find sustainable products on *GSAAdvantage!*.

Manufacturer/Wholesaler Participation

- The VPP is available at no cost and improves the representation of commercial off-the-shelf products on *GSAAdvantage!*.
- Manufacturers of **sustainable products** can use the VPP to ensure the correct environmental designations are assigned to their products and correctly displayed on *GSAAdvantage!*.
- The VPP also allows manufacturers to:
 - Protect against supply chain risks and ensure product and vendor authenticity;
 - Improve customer experience; and
 - Control who can sell products and what product lines they can sell

Green Data Standardization Goals

- **Standardization** - Remove the capability of vendors to game or muddy the data stream
- **Transparency** - Show our customers the same information used to award items to contract
- **Solicit Feedback** - Use feedback button to gather incorrect product attributes
- **Data Correction** - Catalog Quality Specialists utilize the Master Product Management tool to make immediate product record changes
- **Increase Accuracy** - Verify and report inaccurate information back to XSB to be incorporated into the bi-monthly refresh
 - Continue to refine data collection from API's and data scraping.
 - Continue to recruit participants to VPP.
 - Continue to work with the various green icon programs to establish data standard.

Avmor EP65 General Purpose Cleaner Degreaser / ep65-general-purpose-cleaner-degreaser-1

Category [Cleaning Products](#)
Subcategory [Bathroom and Spa Cleaners](#)

EP65 General Purpose Cleaner Degreaser will clean, degrease, brighten floors, windows, walls, countertops, cabinets, sinks, partitions, ledges, ceilings, concrete, terrazzo, quarry tile, tile grouting, garbage cans, dumpsters, garbage disposals, malodours, cooking odours, light fixtures, stainless steel, chrome, plastic, vinyl, appliances, desks, porcelain, porcelain enamel and other surfaces not harmed by water. It will effectively remove industrial grease and oil, animal fats, permanent marker ink, crayons, ballpoint ink, heavy finish build-ups, fingerprints and most water based or oil based soils. EP65 is safer and more effective for use in hospitals, schools, food service, kitchens, restrooms, shower rooms, hotels, gymnasiums, offices, lunchrooms, jails, fitness centers and virtually every other kind of facility.

GSA Advantage and VPP Walkthrough

Melissa Hopkinson, EPA

Safer Choice Program

EPA Safer Choice Program

- Voluntary EPA program designed to
 - Make it easier to find cleaning & other products with safer ingredients
 - Incentivize brands to make said products
- Certifies cleaning & other products that meet EPA's high standards for
 - **Ingredient safety**
 - Performance
 - Sustainable packaging

What should Safer Choice partners and purchasers know about GSA Advantage?

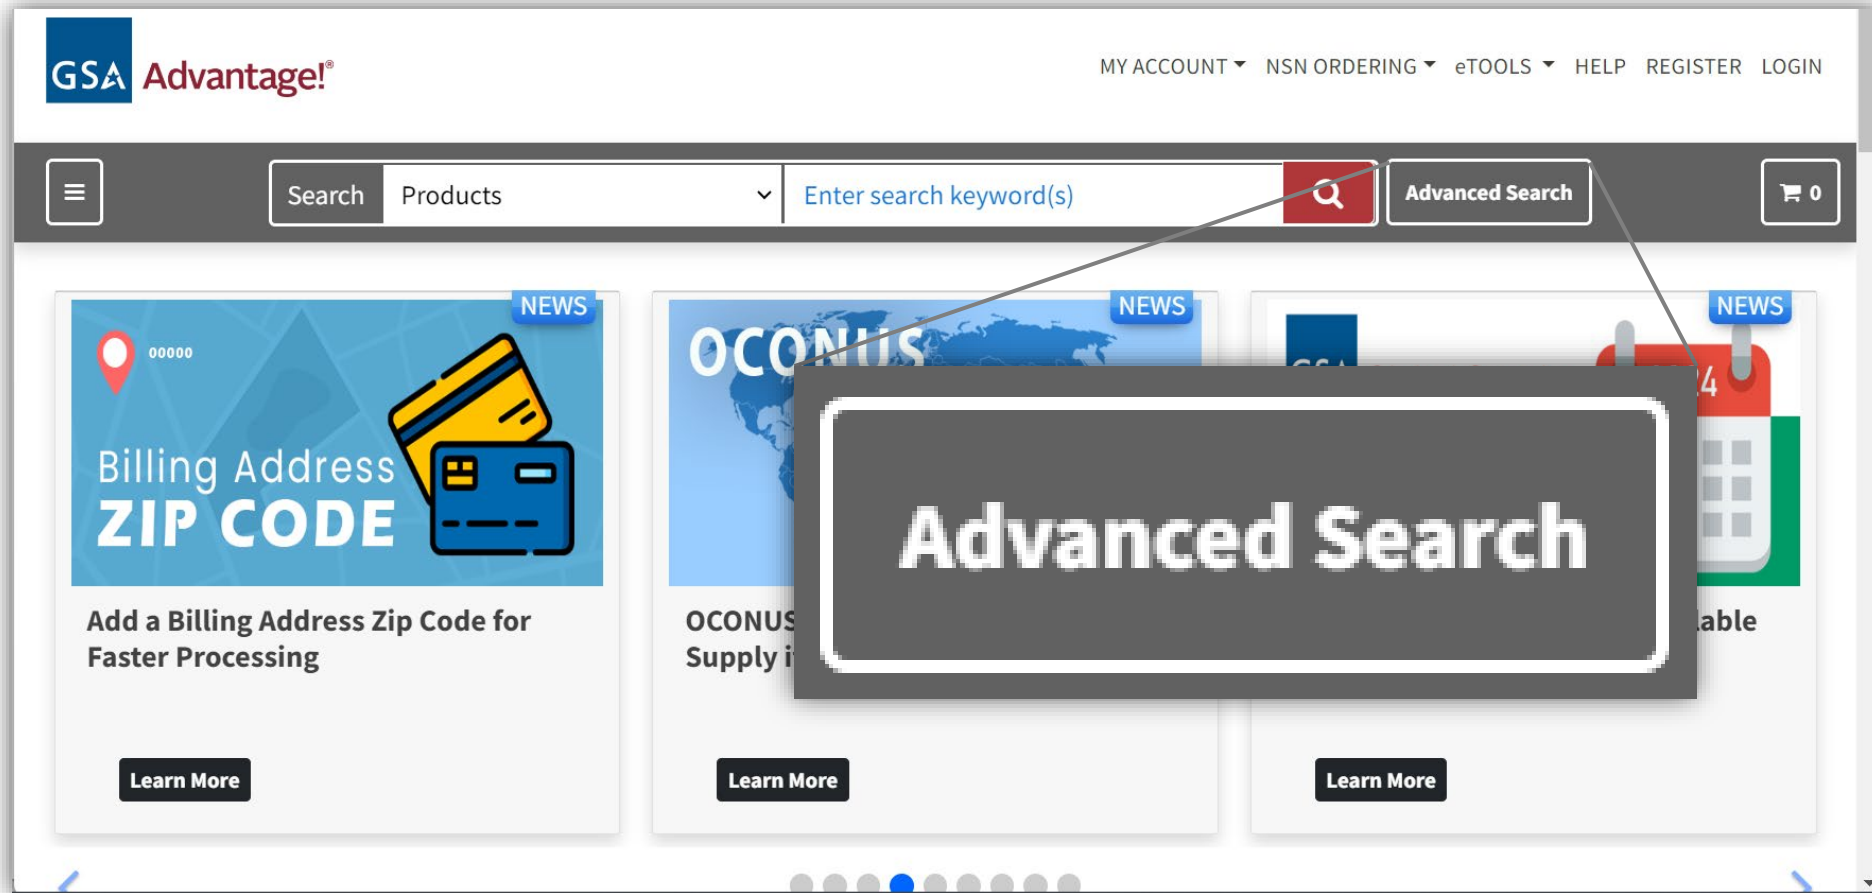

- Purchasers can use GSA Advantage to easily find and buy Safer Choice-certified products
- Manufacturers can improve their product data on GSA Advantage through the Verified Products Portal (VPP)

GSA Advantage Search Tools

- Search for Safer Choice-certified products on [GSA Advantage!](#)
- Use Advanced Search to make searching easier

Safer Choice Certified Icon

Safer Choice Certified - Item is certified to U.S. Environmental Protection Agency's (EPA) Safer Choice Standard and is authorized to carry the Safer Choice label. The Safer Choice label identifies products that contain chemical ingredients that are safer for human health and the environment without sacrificing performance. Environmentally preferable products are required under Federal Acquisition Regulation (FAR) 23.7.

Significant New Alternatives Policy (SNAP) Compliant - Item contains acceptable substitutes for ozone depleting substances, as determined by the U.S. Environmental Protection Agency (EPA) SNAP program. SNAP was established under Section 612 of the Clean Air Act to identify and evaluate substitutes for ozone-depleting substances. SNAP substitutes are required by Federal Acquisition Regulation (FAR) Subpart 23.8.

WaterSense Certified - Item is certified to meet U.S. Environmental Protection Agency (EPA) WaterSense Program specifications and is authorized to carry the WaterSense label. The WaterSense label identifies products that save water and perform as well or better than standard products. WaterSense products are required under Federal Acquisition Regulation (FAR) Subpart 23.2.

Verified Products Portal (VPP)

- Manufacturers can upload product data through the [Verified Products Portal \(VPP\)](#) to be displayed on GSA Advantage
- Product data will follow product
 - Independent of contractor selling and shipping product

Home > Tools Overview > Buying and selling tools > Verified Products Portal (VPP)

Verified Products Portal (VPP)

The [Verified Products Portal \(VPP\)](#) enables authorized original equipment manufacturers (OEMs) and their wholesalers to fulfill the [Letter of Supply](#) requirement by providing supplier authorization information and detailed product content such as:

- Standardized manufacturer names and part numbers
- Product specifications (images, product videos, PDFs, etc.)

The VPP is completely voluntary and free to use and will improve the representation of your commercial off-the-shelf (COTS) products. Its product and supplier data will identify prohibited products and standardize contractor catalogs, ensuring products are accurately represented in GSA ecommerce platforms such as GSA Advantage.

Access VPP

Registered users can [sign in](#) to start uploading product/supplier data.

New users can [apply online](#) for an account. We will screen all applications to ensure users are authorized to represent the organization before creating the account. Contact ypp-registration@gsa.gov with any questions or issues.

To view information on manufacturers participating in the VPP, visit the [Verified Products Portal Participation Dashboard](#) (public).

Description

Product Description

Focus on a full screen Minimal bezel brings maximum concentration. The virtually borderless screen shows you the full picture and looks almost gapless when used in a dual-monitor setup. See more at once with no distractions in your way, and get through larger sections of your to-do list during screen time. True color preservation Perfect color down to the last detail. The IPS panel preserves vividness and clarity across every inch of the screen. Work comfortably on the productivity-boosting wide display. From 178° all around, tones and shades look accurate and without color washing. Ready to connect More ports and peripherals for multiple possibilities. Connect to virtually any device with the triple HDMI, DP, and DVI interface. Built-in speakers bring on-demand listening. There's no need to dedicate precious desk space to another pair, or disrupt your workflow to plug in headphones. Focus on eye care Protected eyes stay focused through the whole shift. Advanced eye comfort technology reduces eye strain for heightened concentration and greater productivity. Flicker Free technology continuously removes tiring and irritating screen flicker, while Eye Saver Mode minimizes blue light emissions. Professional flexibility Superior design for the ultimate in everyday versatility. The height-adjustable monitor swivels, tilts, and pivots for you to see your work any way you want. The sleek and clean design adds a touch of style to your office interior and is VESA-compatible for easy installation. Save power. See it all. Smart Eco Saving technology achieves power-consumption reductions of up to 10% while still maintaining picture quality. It adjusts the brightness of the screen's black sections while simultaneously adjusting the RGB gain values, so the screen looks just as bright as you remember.
